

IV International conference

GENOMICS, METAGENOMICS AND MOLECULAR BIOLOGY OF MICROORGANISMS (IV GMMMC)

The Laboratory of Metagenome Analysis and the Center for Molecular and Cellular Biology of Skoltech invite undergraduate and PhD students, scientists specializing in the fields of genomics, metagenomics and molecular biology of microorganisms to participate in the IV conference "Genomics, Metagenomics and Molecular Biology of Microorganisms" (IV GMMMC). The conference is aimed at sharing knowledge and experience, discussing the results of the latest scientific projects, promoting cooperation between leading experts in the wide range of topics related to genetics, molecular biology and biochemistry of microorganisms, including translation microbiology and genome editing technologies. The program of the conference will include keynote lectures, oral and poster sessions, networking opportunities (coffee breaks, social program).

The working languages of the conference are Russian and English.

The conference will be held on **October 25-26, 2025**
at the Skolkovo Institute of Science and Technology
(Moscow, Territory of the Skolkovo Innovation Center,
Bolshoy Boulevard 30, building 1).

To participate, you should fill out the registration form and upload your abstract on the website <https://studymeta.ru/gmmmc2025> (also QR-code will lead there). The organizing committee will review all received applications and invite participants whose work is the most interesting and best fit into the scientific topic of the conference. Abstracts will be recommended by the organizing committee for presentation during the oral or poster session of the conference.

Abstract submission deadline – **June 30, 2025**.
